

## Occurrences Entered into the ATSB Maritime Safety Database

Between 10 December 2016 and 16 December 2016

Occurrence Date	ATSB Reference Number	Occurrence Time	Time Zone	Investigation	Location	Vessel Name	Identifier Type	Identifier	Occurrence Type	Summary
29/11/2016	MA201600089	13:30	UTC+8	No	At sea near Exmouth, Western Australia	Tern	IMO No	9266190	Serious injury	While cleaning the hold with Sodium Hypochlorite a seaman received chemical burns to his arms. Treatment was given on board and the seaman will be taken for medical treatment when the ship berths.

Note: For the purpose of subsection 49(2) of the Transport Safety Investigation Act 2003 (TSI Act) any On-Board Recordings (OBR) relating to a matter that the ATSB has decided not to investigate, as identified in this publication, are not to be treated as OBR on and after the date of publication of this weekly summary.

Section 48 of the TSI Act contains a definition of an OBR. The voice component of a Voyage Data Recorder normally meets the requirements of an OBR.

Part 6 Division 1 of the TSI Act provides for certain confidentiality protections which must be applied to OBR. When an OBR is declared not to be an OBR other protections may continue to apply such as those relating to personal information under privacy legislation.
