

**Aviation Safety Investigation Report
198903833**

Thruster T500

27 April 1989

Readers are advised that the Australian Transport Safety Bureau investigates for the sole purpose of enhancing transport safety. Consequently, Bureau reports are confined to matters of safety significance and may be misleading if used for any other purposes.

Investigations commenced on or before 30 June 2003, including the publication of reports as a result of those investigations, are authorised by the CEO of the Bureau in accordance with Part 2A of the Air Navigation Act 1920.

Investigations commenced after 1 July 2003, including the publication of reports as a result of those investigations, are authorised by the CEO of the Bureau in accordance with the Transport Safety Investigation Act 2003 (TSI Act). Reports released under the TSI Act are not admissible as evidence in any civil or criminal proceedings.

NOTE: All air safety occurrences reported to the ATSB are categorised and recorded. For a detailed explanation on Category definitions please refer to the ATSB website at www.atsb.gov.au.

Crew	0	0	0	0
Ground	0	0	0	-
Passenger	0	0	0	0
Total	0	0	1	0

Aircraft Details: Thruster T500
Registration: 25-0282
Serial Number: N/K
Operation Type: Sport Aviation
Damage Level: Destroyed
Departure Point: Roxborough Downs QLD
Departure Time: N/K
Destination: Roxborough Downs QLD

Approved for Release: June 28th 1989

Circumstances:

The pilot was carrying out aerial observation within the boundary of the property when the engine failed and the aircraft crashed into thick scrub. The engine failure is believed to have been caused by an electrical malfunction. This accident was not the subject of an on-scene investigation.

Significant Factors:

The following factors were considered relevant to the development of the accident

1. Engine failure probably caused by electrical malfunction.
2. Aircraft was forced landed in unsuitable terrain.
